VISITOR INFORMATION CENTRES

In the parks' visitor centres you will find the necessary information and tips to visit the protected natural areas of our region and make the most of your experience, as well as a wide range of activities and routes

run by our expert environmental education guides to enjoy nature to its fullest. These centres offer you the opportunity to learn about the natural and cultural heritage of Castilla y León in an entertaining way.

RIVER&FISHING SCHOOLS

Come and practise catch and release fishing, releasing trout back into the water with your hands. Our fishing guides will teach you how to properly cast a rod and fish in the school lake and you will also have the opportunity to go out on the river to fish and learn about the wonderful biodiversity of river ecosystems.

TREETOP ADVENTURE PARKS

Move through the forest like a monkey and glide through the treetops. We offer different levels of difficulty for both children and adults, always putting your safety first while combining fun with respect for nature.
