

Museum of the Industria Chacinera

The visitor will learn the techniques of transformation and conservation of products derived from the Iberian pig, all framed in a modern, dynamic and full of new sensations museum.

The museum plays with the old and the present, the rural and the urban; using an audiovisual language close to contemporary art, and showing their images among old machines, tools and oak trunks.

Fourteen video screenings on industry, pasture and traditional life; Interactive games and samples of products to play, smell and get to know in a fun way help to get to know the pork world.
