Museum of San Francisco

It was founded at the end of the XV century in late Gothic style. Today, all dependencies have disappeared except the church. This was built in stone; it has a nave with chapels and niches between buttresses and five sections separated by thick circular pillars attached to them.

Buildings

Convent of San Francisco: Founded at the end of the XV he was built in late Gothic style, today all the dependencies have disappeared less the church. It was built in stone, has a nave with chapels niches among buttresses and five sections separated by thick circular attached pillars.
