

Interpretation Center El Alcornocal

This space will help the visitor to understand the importance of cork oaks, also its richness and the value of its conservation.

The Centre has specialized information about the Alcornocal Cerezal de Aliste, in the province of Zamora. In this documentation you may find both generic information about the cork oak tree as more specific information dealing with the particular conditions prevailing in the province of Zamora, and more specifically in the area of Muelas del Pan, Cerezal de Aliste and Villafior, territories encompassed by the extension of cork oak.
