

Museum and didactic Center Castilla and Leon Lace

The museum has five rooms open to the public in which a part of the collection is displayed, with a representation of scholar and popular laces, mainly produced in the region. It is complemented with pieces or works of other countries, as well as other times utensils for processing textiles. Pieces of lace and embroidery, clothing, liturgical pieces, ritual cloths, household furnishings, etc are exposed.

The extensive library, specialized in textile and clothing arts, is another of the essential tools the Museum has for research.
