

Reservoir of Agueda

The Agueda river is one of the most beautiful of the Duero, it rises in the Sierra de Gata near the border with Portugal and has a length of 133 kilometers. A few meters after its birth is encased forming the landscape known as Los Riscos.

This reservoir takes advantage of a narrow valley and in its waters the practice of almost all water sports are allowed except motor navigation. You can also enjoy fishing one of the predominant species of the Agueda river, the pike.
