

Reservoir of Ponton Alto

Its main target is to supply water to the city of Segovia and other towns. Proximity to the Capital Segovia has become a place of reference for thousands of citizens who take advantage of the 12 kilometers of coastline to play different sports such as canoeing, and touring the area.

On the left bank of the reservoir of the Pontoon, a walk around the edge of it which enables access to the trail, located in the area known as El Robledo, has been enabled
