

Cattle Valdellan

Among the activities proposed, a tractor ride takes you to discover the oldest cattle breed in the world, a gem of Spanish genetic heritage, which still retains much of the savage instinct of the first cattle.

To the wild bull beauty, are added the modern facilities with enclosures, a sort of corridor where cattle can be in order to do some sanitary, crate to brand, small crate to treat the animals, field where the cattle is left once branded, bull pen, trial ring, stables...

Address

Dehesa de Valdellán. Santa María del Rio (Villaselán). 24344 León.
