

## Yanguas

In the Highlands, north of the province of Soria, and watered by the waters of the Cidacos River, is the magical town of Yanguas.

The long muleteer tradition gave splendor to this beautiful place that has managed to preserve the authenticity of its medieval past in the middle of an impressive natural environment.

Visit this historic town in Soria, full of steep streets, arcaded squares and emblazoned houses, full of picturesque corners that make you fall in love at first sight.

The delicious typical Castilian gastronomy also makes a place for itself when it comes to sitting at the table and it is possible to taste preparations such as sweet blood sausage, migas de pastor, torreznos, caldereta, lamb chops, game meat, seasonal mushrooms and Highland sausages.

Much to discover!
