

Walled enclosure of Alcañices

Little information has survived to today; hardly a few traces of its medieval architecture allow us to imagine how the wall was. The layout can be restored through the current town planning; while of their defences, dated in the XV century, just four of their cubes remain standing.

Historical Data

Architecture: Military architecture

Construction: Rampart

Historical Period: , Middle Ages Early modern period

Address

Alcañices. 49500 Zamora.
