

Quinta de la Concepción

Posada Real ****

It is located at the confluence of the rivers Douro and Huebra, in the heart of the Arribes del Duero Nature Park in Salamanca. It has a Mediterranean micro-climate, with orange, lemon, almond and olive groves.

A beautiful building, typical of the district, perfectly integrated in its natural surroundings and equipped to offer a pleasant stay at any time of the year. Its careful decoration consists predominantly of restored antique furniture, various utensils formerly used in the everyday life of the villages in the area and a collection of paintings by the Salamancan artist Domingo Martín.
