

Markets

Mercasetas is a new concept of market products and services Mycological allowing to combine the commercial activity of the mushrooms in a territory, with the dynamic micoturística of the environment, consumer education and the improvement of the sector.

At the conclusion of each of these markets is enabled a space where collectors in possession of a permit, local, provincial or linked corresponding regulated harvest area can sell their fresh produce. This area is managed by one of the companies participating in the brand 'Mushrooms Castilla y León'.

Visitors can also purchase Mycological products transformed and developed by agricultural companies of the territory, together with the Mycology-related handicraft products in these markets. They also have an area linked to the Mycological gastronomy, with lids so everyone enjoy the most well-kept of the delicacies of our forests elaborations.
