

Stage 3: Triollo - Guardo

Journey:	Linear
Way:	- By bike (3.5 h.)
Length:	30.8 kms.
Ascent slope:	570 m.
Difficulty of the route:	High
Route:	From Triollo to Guardo

Stage of 30 kilometers, most of which, within the Natural Park of Fuentes Carrionas y Fuente Cobre-Montaña Palentina. The difficulty, as in the second stage, remains high because of the hardness of the route that crosses the forest tracks. In winter, and even a few days of spring, it is easy to find snow on the passage of Cruz de Valsurbio.
