Located in the Picos de Europa National Park. The tour highlights the traditional architecture of the area, among which the granary is one of the most interesting elements. Three routes are proposed in which the starting point is Oseja de Sajambre. The first runs along the traditional Camino Real de Sajambre through Vierdes and Pio, two towns that preserve traditional porticoed houses and some granaries. The second branch runs towards Ribota, which is distinguished by the good conservation of its stone farmhouse and its set of granaries. And the third branch, the longest, reveals impressive natural viewpoints in the valley and continues the Senda del Arcediano to Soto de Sajambre, where we find corridor houses, the school-museum and the laundries.
