Cycle tourism in the province of Segovia

Position: - Segovia

42 mountain bike routes structure the province of Segovia, bringing you closer to impressive natural spaces, beautiful towns and genuine monuments at the stroke of a pedal.

The Barrancos y Hoces route starts from Carrascal del Río and brings us closer to the "little Duero", as the Duratón River is known. A circular route of just under 45 km that runs between the Las Vencías and Burgomillodo reservoirs, looking for the waterfall in the upper area of Torreadrada.

The plain of the Eresma River is an inexhaustible source of sensations and a magnificent way to enjoy it is by following the Artesian Wells cycle route. This 38 km circular route starting and finishing in Navas de Oro runs through beautiful pine forests dotted with bridges, mills and towns rich in heritage and where it is possible to visit the rock engravings of Domingo García.

Molinos in the valley of the Voltoya River is a 41.5 km circular route that starts from the historic town of Coca. Itinerary that runs through extraordinary places in which the set of mills that rise in the Voltoya basin and the ponds that, scattered along the way, stand out are an oasis in the Tierra de Pinares.

Irrigation well in Carracillo is another 37 km circular that begins in the town of Samboal. El Carracillo, a region located in Tierra de Pinares, houses some of the most impressive Mudejar coffered ceilings in the province, which we can admire in the parish churches of Gomezserracín and Chatún.

The Linares de Arroyo Reservoir route starts from the Plaza de Maderuelo , a 46 km circular route that brings us closer to natural paradises such as the Linares del Arroyo reservoir or the Retuerta stream canyon and beautiful towns such as Moral de Hornuez with the Hornuez hermitage. , Valdevacas del Montejo with its washing places or suggestive corners such as the one formed by the Casuar hermitage in the Hoces del Riaza river.
