

"With death by the elbows" (ATOPIIC THEATRE)

Dates: November 29, 2025

When?:

Link: [To know more](#)

We are like that... the important thing is to know each other!

Today is **a special day for Fermín**. While enjoying his daily ration of buttered toast bathed in coffee with milk and saccharine, he discovers through the horoscope that he is going to meet someone who will change his life.

But what is his life? What is his life like? Is his life like a tube? Can life be anything more than the metaphor of a tube? (We sincerely think not.) Will the last drink that Fermín is going to have be a tube?

"Con la muerte por los cuellos" is a venial show that, while it does not intend to answer all these questions, at least tries to make the spectator have a **good time reflecting on different aspects of human existence** and the artistic career of Luis Cobos.

Let us all sing together a natural "LA" in memory of Fermín, that anonymous hero who will save us all from universal collapse.

- Fernando Ballesteros plays Fermín.

- Jorge da Rocha kills Fermín.

" And remember that **LIVING** is the only thing that can **KILL you!**"

Jorge da Rocha and Fernando Ballesteros are two actors from Burgos who decided to join forces to create a **comedy show**, with the intention of touring the country with it. **Their extensive training, combined with the good chemistry between them on stage, ensures serious, rigorous and enjoyable work.**

Genre: Theatre. **Style:** Comedy. **Duration:** 70 min.

Show included in the programming of the Scenic Circuits of Castilla y León.
