

## "Oh-pera" (TXOSCO CIRCUS)

**Dates:** June 7, 2025

**When?:**

**Link:** [To know more](#)

In OH-PERA, as in life, there is no stability, but rather balance. Everything changes, nothing remains the same, and with each transformation, a world of possibilities opens up. Everything is made up of atoms; depending on how they are combined, it can be a giraffe, a chair, or a ladder. The world is made of elemental pieces, and our world is made of boxes that change into different universes. A contemporary circus show for all audiences. A mix of theater, humor, and circus, where realism is palpable in circus techniques with a totally real risk in terms of balance, acrobatics, and aerial techniques carried out in a unique and never-before-seen creative way. An innovative show that brings the audience closer to a dramaturgy where the characters go through truly funny and complex situations, leading them to a whirlwind of emotions that the audience will experience as their own.

**Genre: Circus. Style: Acrobatics. Running time: 55 min.**

**Show included in the programming of the Scenic Circuits of Castilla y León.**

**Event website :** <https://aireaire.com/zirko-txosko-ohpera/>
