Difficulty of the route: High
Web: To know more
Route: From Riello to Villablino

One kilometer far from Riello starts this tour, taking a dirt track and crossing road sections and forest trails, as well as the medieval village of Murias de Paredes. The route passes by 54 kilometers to Villablino, bastion of underground coal mining during much of the XX century. This route is recommended from spring to autumn since in winter you can find roads or sections in poor condition because of the rain and snow.
