PRESENTATION: ARLANZA

The Arlanza Wine Route is located south of Burgos and east of Palencia, connected by the A-1 and the N-122.

The landscape covers 2,000 kilometres of vineyards, savin groves, fields of grain and sunflowers, with more than 450 hectares of vineyards. The river Arlanza flows through the regions of El Cerrato, Arlanza and Sierra de la Demanda.

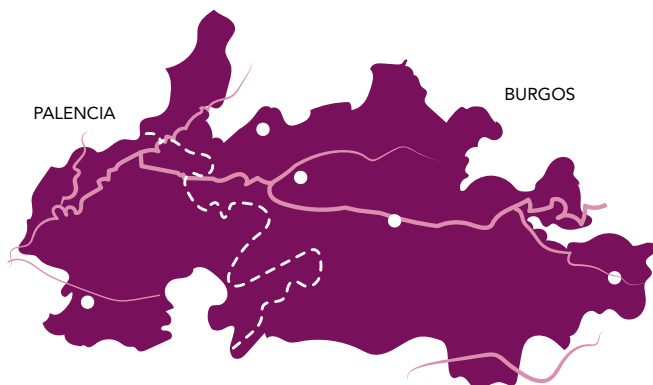

Local history dates back to Roman times and was key to the Reconquest, with medieval villages and wine cellars from as early as the 7th century.

Traditional dovecotes can be found in Cerrato. The Tinta del País or Tempranillo grape gives the local wines great personality, aroma and colour.

Local produce ideally accompanies these wines, including Torquemada peppers, Covarrubias cherries and roast lamb.

The surrounding countryside offers trails, forests and protected areas ideal for outdoor activities.

The Arlanza Wine Route, the essence of Castilla y León.

PRESENTATION: ARRIBES DEL DUERO

Located between the provinces of Salamanca and Zamora, on the border with Portugal, with **more than 150 km of river canyons** from which it takes its name, "Arribes" is an etymological derivation of the Latin "adri-pa-ae" meaning "on the banks", on the banks of the Duero and its tributaries.

This is a breathtakingly beautiful route, set against the magnificent natural backdrop of the **Arribes del Duero nature park that forms part of the UNESCO** Meseta Ibérica Biosphere Reserve.

The landscape boasts an immense natural and environmental wealth and features sheer canyons and gorges with slopes of up to 400 metres which can be admired from numerous viewpoints, during a tour of the vineyards or whilst enjoying a boat trip along the Duero.

Waterfalls 50 metres high of enormous beauty and innumerable buildings linked to local agriculture, such as traditional houses with their arches, cave wineries, an endless array of guardaviñas or granite houses, storks in the vegetable gardens and typical dry-stone walls.

Traslanzas is the project by oenologist María Pinacho and winemaker Carlos González, who have joined forces to make exceptional wines from grapes grown in their oldest vineyards.

The enormous viticulture potential of the Cigales Denomination of Origin led them to use its excellent vineyards and red grape varieties to produce a red wine characterised by its structure, persistence, elegance and personality.

The winery was built in 2021 in a modern and minimalist style.

More than 30 wineries open their doors to create exclusive experiences: private tastings, horseback rides through the vineyards, gourmet picnics or team building activities with wine as the common feature.

The route is just one hour from Madrid, with a conveniently located high-speed train (AVE) station, combining accessibility with gastronomic excellence and a unique monumental heritage, with 45 assets of cultural heritage (BICs) and three historic sites.

PRESENTATION: SIERRA DE FRANCIA

The **Sierra de Francia Wine Route** offers an unparalleled wine tourism experience in a Biosphere Reserve setting. Surrounded by terraced vineyards, charming villages, and family wineries, visitors enjoy tastings, local cuisine, and outdoor activities. Ideal for MICE tourism, it blends authenticity, landscape, and culture to create the perfect backdrop for unique events.

HOW TO GET THERE

Located in the south of Salamanca province, the Sierra de Francia Wine Route is easily accessible by road, train, or air — making it a perfect destination for MICE events in an authentic natural setting.

Just 3 hours from Madrid and 1 hour from Salamanca, **access is via the A-66** (Silver Route) motorway to Guijuelo or Béjar, then along scenic local roads leading to the wine villages of the Sierra (La Alberca, Mogarraz, San Martín del Castañar...).

The **Salamanca Railway Station** (RENFE) offers daily connections with Madrid, Valladolid, Cáceres, and Zamora. From Salamanca, a transfer or drive to the Sierra takes 60 to 90 minutes.

The **Salamanca-Matacán Airport** (SLM) is approximately 80 km away. For **international flights**, Madrid-Barajas Adolfo Suárez Airport (MAD) is the best option, about 2.5 hours by motorway, with private transfers and car rentals readily available.

PRESENTATION: TORO

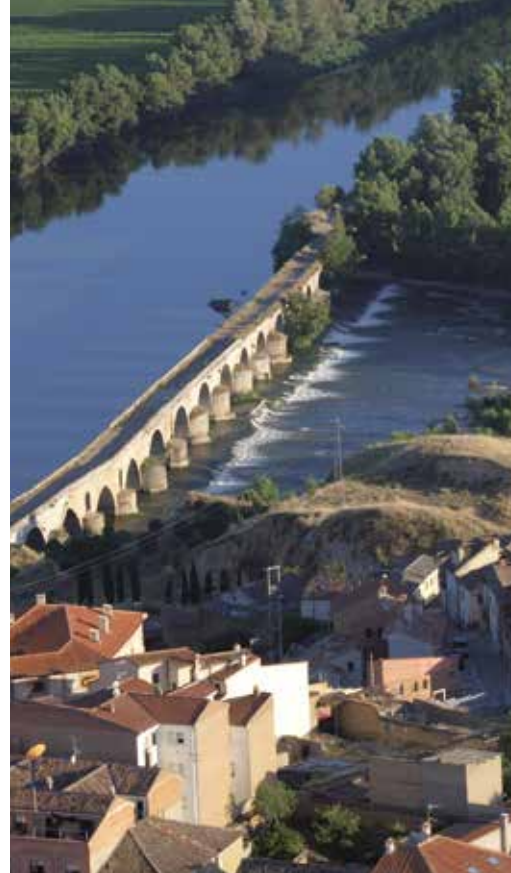

The Toro Wine Route is designed to offer experiences that **'leave their mark'**.

It is the perfect alternative for a weekend of inland tourism, in an area full of history, heritage, culture and food and with a **vast tradition of fine wines**.

It covers seventeen municipalities between the south east of the province of **Zamora** and the south west of the province of **Valladolid**.

The origins of these wines from the Toro region of Zamora date back to before the settlement of the Romans. It is said that Toro wine was on the **Caravel La Pinta bound for the Indies...** In the 1970s, the first steps were taken to create what would later become the Toro Designation of Origin (DO Toro).

If you come to Toro, officially designated 'Pueblo Mágico 2020' (Magical Village/Town), you can of course stroll the village streets but you can also meet a Gothic King, dance with Las Mascaradas, visit the Wine Museum, walk under a dovecote and much more on the discovery of this wine route.

Piedra winery is the result of one family's dream to turn their passion for making fine wines into a business reality.

Our vineyard, planted in 1967, is the largest plot of old vines in Toro.

We have a team of highly qualified professionals who ensure that their passion for wine is reflected every day in a quality product, a wine that combines the local rural tradition of the Duero region with our distinctive innovative character. We invite you to visit our winery, located in the Guareña valley, in the heart of the D.O. Toro area, and discover an experience that is both different and stimulating, where you will learn the ins and outs of viticulture, as well as how we produce and age our wines, in an environment full of history and love for our land.

The building was under construction when the family acquired it in 1800. The last member to take over was Luis Villachica, father of Victoriana Villachica. PRESENTATION: ZAMORA

Wine is rightly in the name of this region where wine growing was the main stay of the rural economy well into the 20th century and lives on in the vineyards of hundred-year-old vines. Nestled on the banks of the Duero River and crossed by the Silver Route, the Tierra del Vino region covers an area of almost 1800 km², a cross forty-six districts of the province of Zamora and ten districts in the province of Salamanca.

Travellers interested in the finer points will find the **Zamora Wine Route** the perfect place to take in wonderfully conserved spaces that still bear the spirit of the past.

Exploring history through works of art, **from 11th century Romanesque to 20th century Modernism**, visiting traditional wine-producing wineries, which still perform the same function they were built for, and taking in the traditional Castilian countryside that weaves fields of cereal crops with century-old Tierra del Vino vineyards are just some of the activities visitors can experience on the Zamora Wine Route.
