

Cañadas Reales (Drovers' road) De la Plata

Cross Las Omañas, go through Astorga and La Bañeza to enter Benavente. From here, he heads for the Tierras del Pan, crosses the Duero river in Zamora, leaves the Tierra del Vino behind and heads to Salamanca. In this province he enters the region of La Armuña and then in the capital. Descend now to cross the Central System through Puerto de Béjar, in whose vicinity it coincides with the Cañada Real Soriana Occidental in the Los Santos district. From here, they go down together to Extremadura lands and separate at the end of the Abadía. The glen ends in Trujillo.
