To the south of the province of Salamanca, in the Sierras de Béjar y de Francia Biosphere Reserve, is the Camino de los Prodigios.

It is a circular path that connects the municipalities of Miranda del Castañar, declared a historic site, and Villanueva del Conde.

A prodigal nature floods the walker: oaks, vines, olive trees, cork oaks and strawberry trees, bridges and terraces, wonders of the hand of man... and artistic interventions along the route that allow a rereading of the landscape, new sensations, perhaps emotion.
