

Safe Hostels

The Association of Municipalities of the Camino de Santiago distributes and requests the use of the following documents, by the Jacobean organizations, in addition to associations of private hostels in Spain and Portugal, as well as by other entities around the world that have expressly asked us and serve interchangeably. for the entire Caminos de Santiago.

- **CONTINGENCY PLAN.** Contains essential material and advice in case of inspection. <https://www.amcsantiago.com/la-asociacion/descargas/>
- **HEALTH PROTOCOL** of actions. It is the one with the highest number of downloads and contains general health standards to be adopted in shelters adapted from the ICTE Shelters document. We have published it in Spanish, English and French. <https://www.amcsantiago.com/la-asociacion/descargas/>
- **PICTOGRAM DOCUMENTS.** They contain pictograms for shelters adapted to health regulations. General poster for printing size of 50X70 in which the "safe shelter" badge does not appear, posters for the different spaces of the shelters at 30X40 and individual posters sizes A/4 in color and B/W to minimize costs to the shelters who decide to use them.
- **VIDEOS THE ESSENTIALS OF THE ROADS.** Finally, in the following link we have uploaded to share the two videos that we have prepared for pilgrims and the hostels: the first is about the essential things that a pilgrim should carry in their backpack and the second about what to do when arriving at the hostel. On RRSS they have more than 14,000 reproductions.
