

Interpretation Center of the Ciudad de Agreda and Territory

It features a journey through the history of Agreda from the Arab occupation of the VIII or IX centuries to the present. You can also see the replica of an Arab ceramics workshop, with an original oven found in the excavations and rests of pottery.

There you will find audiovisuals, mockups and explanatory panels telling the history and evolution of the city. A virtual tour allowing time travel, from the primitive enclosure of Islamic walls of the early Middle Ages, to the present village through the streets and monuments of the town.
