

Interpretation Center of the Mysticism

This unique proposal shows the complexity of mysticism and, at the same time, its profound simplicity. At its spaces happens the meeting of different artistic disciplines and techniques of architecture, scenography, painting, sculpture...

This center is unique in Europe. It is organized into four rooms, matching the four universal in which creators have divided the mystic: Room 1, tradition; Room 2, the knowledge of the self, the place to be with him/her; Room 3, enlightenment, union with God; Room 4, action, the back of mysticism to the world. It shows, through symbols distributed in four rooms, the general features of the knowledge of the Mystic.
