

Interpretation Center of the Valle del Tietar

The Historical Interpretation Center of the Valley of Tietar makes the Castle of La Adrada into a cultural and tourist attraction. The fortress is arranged for visitors to understand how it has evolved its construction and its use throughout the centuries and how life has run in the Valley until today.

The figure of a soldier on guard, wearing the manner of a yeoman of the first half of the XVI century, welcomes visitors, on the ground floor, where you can follow, thanks to an audiovisual, the stages of construction of the Castle.
