

## Grouse Center

It provides an overview of the Park and the numerous options available to visitors. A superb audio visual installation takes us on a journey through the seasons, offering an insight into natural living landscapes of the Valle de Laciana, whose forests are home to a fascinating flora and fauna, including the brown bear and the Cantabrian capercaillie. The centre also offers a detailed vision of the topography and the geological and paleontological history of the region, as well as its principal natural habitats, from the mountain ranges to the low-lying valleys.
