

Reservoir of Las Vencias

It is the second of dams that the Duratón river has and is situated between the villages of Fuentidueña (at the header) and San Miguel de Bernuy (at the end of the reservoir). This reservoir is ideal for fishing, and it is also enabled for the swimming, non-power boating, kayaking ... Very visited in summer, it maintains an surroundings of cuts and small woods that make its access by foot is the best option.

Address

Fuentidueña. 40357 Segovia.
