

Castle of Zamora

Opened its doors in august 2009 with a completely revamped and a dramatic upgrading of both the strength and defensive structures as the surrounding gardens. Diamond shape is formed by a series of concentric structures, pit-pull, liza, body residential courtyard. It highlighted the main tower, the highest, a fortress of strength. During recovery phases have been found five towers.

This XI century fortress, was ordered to be built by Fernando I, it was never a palatial castle but a fortress in which to protect and protect the city.

Zamora Castle experienced a period of great splendor in the Middle Ages, undergoing a major transformation in the eighteenth century to become an artillery fort and adapt well to new methods attack and defense of cities, the artillery.
