

Church of San Juan Evangelista

Parish church built in the 16th century, with a gothic apse end and two altarpieces, the main one by Francisco Giralte, the other one, plateresque.

The church shows different building stages. During oldest stage, in the 16th century, they built the apse end and the first section of the naves, with Gothic elements and some Renaissance touches. The whole front is protected by a large round arch.
