

Church of San Pedro

The ancient parish church of San Pedro is located in the middle of the neighbourhood of the same name, at the foot of the hill where there were a castle or tower and next to the jurisdictional roll.

The construction is quite modest, highlighting the typical bell gable under which had been the old Romanesque façade, now covered up, but that catches sight of one of the capitals that flanked it.

HISTORICAL DATA

Architecture:	Religious architecture
Construction:	Church
Predominant styles:	Romanesque
Historical Period:	Middle Ages
