

Hermitage of Nuestra Señora de las Fuentes

Shrine from the middle of the 13th century with romanesque elements and many gothic additions. Beautiful exterior windows with three columns on each side, one of them with strong shafts and leaved capitals.

A church that has three naves with transepts and groined vaulting with capitals decorated with small heads in the angles. Simple modillions and other animal heads in the Romanesque style. Mudejar plaster pulpit from the end of the 15th century.
