Church of Santa Maria del Castillo

Asset of Cultural Interest since 1944, in a late Gothic style (15th - 18th centuries). Located in the highest part of the town, it was the place where the old castle of the town was settled, which today gives its name to the temple. Today the multimedia montage Vestigia, Leyenda del Camino is located there, which, through images and sound, recovers the stories and legends of Frómista and those of the Camino de Santiago.
