

Fortified House of Villanueva de Mena

The Casa Fuerte, in the Valley of Mena, is a place that embellishes this beautiful and rich area, a site rich in heritage, stones of history that should be preserved.

Thus is decided on this Casa Fuerte of Villanueva de Mena, a building that as others from the same place has a fortified appearance, being used as dwelling for notorious families in the past and still keeps this remarkable aspect of robust building, with large curtain walls and few windows, with few accesses and well defended.
