

Posada Hostería del Mudéjar

Posada Real *****

La Hostería del Mudéjar appears historic inn first listed on the property roles in 1898. Rebuilding the inn has transformed the former home of the county doctor into a charming Posada Real. This state-designated Posada Real conserves many of the original materials: stone, brick and wooden ceiling beams the cobblestones of one of the entrances and the traditional inner courtyard, and so on.

The ground floor of the two-storied La Hostería del Mudéjar has a luminous inner patio, there are three guest rooms. On the upper floor, there are seven other rooms.

La Posada offers several fascinating activities of its own, such as mushroom identification, ecotourism and sustainable tourism.
