

Iberian Wolf Center of Castile and León

The Iberian Wolf Center is an educational and socioeconomic revitalization initiative linked to the Wolf Conservation and Management Plan in Castile and León. The interpretation center is a unique building integrated with the environment and eco-efficient, which evokes and reinterprets heritage elements associated with the wolf. Thus, it is invited to take an exciting journey to the coexistence between people and wolves, through its exhibition spaces (equipped with audiovisuals, environmental sounds, archaeological and ethnographic pieces, texts), projection and educational rooms. The facility has large fenced enclosures, in which specimens of the Iberian wolf are housed in semi-freedom, so that they can be observed by visitors. There are several pedestrian paths and three elevated observatories.
