Centro de interpretación de la miel

The Honey Interpretation Center is located in Sagallos, a place of great tradition. The center offers guided tours (English, Portuguese and Spanish) through the honey museum and the wax press, as well as visits to live hives and gastronomic workshops with honey as the protagonist. Medicinal plant workshops can also be held in this center, using wax for its transformation into creams. For the little ones, the center organizes storytelling, handicrafts and children's bee games.
