

National Center for Environmental Education CENEAM

CENEAM is a reference center in environmental education that has been working since 1987 to promote the responsibility of citizens in relation to the environment. It is established as a resource center at the service and support of all those groups, public and private, that develop environmental education programs and activities.

Its lines of work focus on the collection and dissemination of specialized information on environmental education; in the design and development of awareness and citizen participation programs; in the development of educational materials and exhibitions; in the organization and support of seminars and other forums for reflection and debate; in the development and execution of environmental training actions; and in cooperation with other public and private entities for the promotion of environmental education.

CENEAM SERVICES AND PROGRAMS:

- **Environmental Documentation Center** open to the public, with online consultation of the Library Catalog and the Digital Photo Library. And access to the Directory of Information and Documentation Centers of Spain.
- **CENEAM Information Folder** , free monthly electronic newsletter of resources for environmental education.
- **Educational Program "CENEAM with the School"** , which aims to bring students closer to the concept of rational use of natural resources through activities, educational workshops and small routes to interpret the environment of the Montes de Valsain.
- **Environmental Training Program** of the Autonomous Organization National Parks - Ministry of Agriculture, Food and Environment, and other courses organized through inter-institutional agreements.
- **Program of Seminars or Working Groups** , discussion forums for professionals in the environment and environmental education sector.
- **Thematic mini-portals** , compilation of resources for education, citizen awareness and public participation in environmental matters, on: Climate Change (for topics related to the application of Article 6 of the Framework Convention on Climate Change), Mobility and Children, Biodiversity, Guadarrama Mountain Range and Network of Sustainable Educational Centers.
- "Green Homes" Program and the Recovery and Educational Use of Abandoned Villages Program, two educational programs in collaboration with other administrations.
- **Books from the Environmental Education Series** , a collection published by the National Parks Autonomous Organization, available in PDF.
- **Itinerant Exhibition Program** , free loan service of environmentally themed exhibitions to non-profit entities.
- **Temporary and permanent exhibitions** on environmental topics.
- Self-guided Itineraries through the Valsain Mountains, CENEAM Program of educational excursions around Valsain and Summer Walks, for visitors interested in getting to know the area.
- Study visits for specific groups provide an overview of CENEAM programs and resources from a technical perspective.
